CLAIM AMENDMENTS

Claim 6 (Cancelled)

CLAIM LISTING

I claim:

1. (Original) A male toilet over spray shield having an upstanding wall which is substantially semi-elliptical in configuration which is adapted to removably sit within a conventional toilet bowl, wherein the upstanding wall is substantially from six inches to twenty four inches in height, and the over-spray shield further having at least one protruding flange attachment means for attaching the shield to toilet seat rim after raising toilet seat and it further is provided with a domed top to prevent urine splash back out the top of the device.
2. (Original) The toilet over spray shield of Claim 1 wherein the flange attachment means are substantially annular surrounding at least a portion of the upstanding wall of the device and further extending substantially outward and perpendicular to the upstanding wall of the device.
3. (Original) The toilet over spray shield of Claim 2 wherein the flange attachment means are substantially annular and L-shaped such that they may be removable secured about the rim of the toilet
4. (Original) The toilet over spray shield of Claim 1 having an exterior portion to the

upstanding wall of the device and further the attachment means are integral thereto.

5. (Original) The toilet over spray shield of Claim 1 having an exterior portion to the upstanding wall wherein handle means is provided along the exterior portion of the semi-elliptical walls for easy insertion and removal of the device
6. (Cancelled)
7. (Original) The toilet over spray shield of Claim 1 wherein the upstanding wall extends at least one inch below the flange attachments means
8. (Original) The toilet over spray shield of claim 1 wherein the device further has an interior wall portion in the upstanding wall and the interior wall portion is further provided with an amusing image for urine channeling.
9. (Original) The toilet over spray shield of Claim 7 wherein the amusing image is imprinted on at least one with an adhesive backing which has been secured to the upstanding wall.
